Pumps, Valves & Services Everything for fluid transfer application

KSB Limited opened a new service station in Baddi, Himachal Pradesh on November 26th, 2021

KSB Limited inaugurated its 6th service station at Baddi, Himachal Pradesh, India at the hands of Mr. Rajeev Jain, Regional Executive Officer, KSB Asia West and Managing Director KSB Limited to provide reliable, efficient and prompt service for pumps to its customers. With its service stations situated at Noida, Howrah, Chennai, Odhav and Chinchwad, Baddi shall be the new addition to the portfolio.

This service station is a part of SupremeServ, the aftermarket business, which aims to provide world class services for our customers. Considering the huge installations of KSB pumps in the hilly areas of Himachal Pradesh and its adjoining states, setting up an additional company owned service station to be in the close proximity to our customers was necessary.

This service station is built in accordance with global best practices followed by KSB group and is equipped to provide superior service to its customers.

Glimpse of the Inauguration Ceremony :

Inauguration of new Facility at Sinnar plant

We recently inaugurated a new facility in our Sinnar plant premises. This facility is about 9000 Sq.M and shall contain submersible /Industrial Finished goods, 4" motor pump packing automation line, 3" & 5" manual packing, Solar Business, Subcontract stores and Spare department

KSB Limited inaugurates it's very first 'Innovation Lab' at Nashik, India

To provide an atmosphere where one can conceptualize new and innovative ideas and bring them into reality, we inaugurated our very first Innovation Lab in Nashik on 27th December, 2021. Germany has set up an Innovation Lab, which inspired us to undertake this remarkable initiative.

The lab is about 700 sq. ft. near Nashik and away from our Sinnar plant to ensure zero-intervention with the factory functions and to provide an atmosphere where one can conceptualize new and innovative ideas and bring them into reality.

KSB Limited inaugurates it's first **Mechanical Seal Repair Centre** of KSB Asia West at KSB PPD Chinchwad location

This Centre will cater to the various repairs & service requirements of Mechanical Seals

ANNEXURE II TO BOARD'S REPORT

INTRODUCTION

The Company is engaged in the business of manufacture of power driven pumps and industrial valves. Castings are mainly produced for captive consumption.

INDUSTRY STRUCTURE AND DEVELOPMENT

General

Global growth is expected to decelerate markedly to 4.1% in 2022, after rebounding to an estimated 5.5% in 2021, reflecting continued COVID-19 flare-ups, diminished fiscal support, and lingering supply bottlenecks. The near-term outlook for global growth is somewhat weaker, and for global inflation notably higher, than previously envisioned, owing to pandemic resurgence, higher food and energy prices, and more pernicious supply disruptions. Global growth is projected to soften further to 3.2% in 2023, as pent-up demand wanes and supportive macroeconomic policies continue to be unwound.

In India, the economic damage caused by the second wave has already been unwound with output effectively back to levels reached prior to the pandemic as COVID-19 cases and restrictions subsided. India's economy is expected to expand by 9.2% in fiscal year 2022, unchanged from last June's forecast as the recovery is yet to become broad-based. The economy should benefit from the resumption of contact-intensive services, and ongoing but narrowing monetary and fiscal policy support. In FY2022 and FY2023 growth has been upgraded, to 8.7% and 6.8% respectively, to reflect an improving investment outlook with private investment, particularly manufacturing, benefiting from the Production-Linked incentive (PLI) Scheme, and increases in infrastructure investment.

Pumps and valves industries

With an annual turnover of ₹ 200 billion and annual production of 4.5 million pumps, India's pumps and valves industry is the fastest growing in the Asia Pacific region. The growing demand for pumps and valves by industries in almost all major sectors, especially industry, oil and gas and water and wastewater, is a major inducement for further growth in India's pumps and valves sector.

Investment in infrastructure, sanitation, energy, manufacturing, and real estate is expected to sustain in the medium to long term. Government support to boost economic development is also expected to provide an attractive avenue for the pumps and valves industry.

OPPORTUNITIES AND THREATS

The broad uptick in private capex and the general momentum of government investment presents opportunities for growth of the industry. The Company continues to focus on augmenting the product offerings, identify emerging opportunities and deploy necessary resources to capitalize on them.

Necessary mitigation actions for threats from supply chain disruptions, commodity costs, competition are actively implemented with continued focus on evolving our existing competence.

SEGMENTWISE PERFORMANCE (Consolidated)

During the year under review, pumps and related spares worth ₹ 12,474 Million (Previous year ₹ 9,570 Million) and valves and related spares worth ₹ 2,336 Million (Previous year ₹ 1,991 Million) were sold. Out of the above, export of pumps, valves and their spares in terms of value were ₹ 3,025 Million (Previous year ₹ 2,339 Million)

OUTLOOK

In line with the general economic outlook and the pickup in industrial capex, the Company expects the market for pumps, valves and services to grow reasonably well. The export sector is

MANAGEMENT DISCUSSION AND ANALYSIS REPORT (Contd.)

also expected to grow moderately; provided the pandemic effect and the commodity price pressures subside gradually.

RISKS AND CONCERNS THE MANAGEMENT PERCEIVE

Risks to the outlook are primarily to the downside. All regions are vulnerable to continued outbreaks of COVID-19 and the spread of new variants of the virus. Risks related to financial stress due to rising inflation, hawkish monetary policies, geopolitical tensions, increasing energy prices can adversely affect economic activity. With entry of more players in the domestic market, competition is expected to be more aggressive leading to price pressures. Uncertainty in global economic growth is expected to impact the growth rate in India and consequently the Company's operations.

INTERNAL CONTROL SYSTEM AND THEIR ADEQUACY

Internal Control Systems are implemented:

- To safeguard the Company's assets from loss or damage.
- To keep constant check on cost structure.
- To provide adequate financial and accounting controls and implement accounting standards.

The system is improved and modified continuously to meet with changes in business condition, statutory and accounting requirements.

Internal controls are adequately supported by Internal Audit and periodic review by the management.

The Audit Committee meets periodically to review -

- Financial statement, with the management and statutory auditors.
- Adequacy/scope of internal audit function, significant findings and followup thereon of any abnormal nature, with the internal auditors.

DISCUSSION ON FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL EFFICIENCY

Cost reduction have been achieved in certain areas by implementing efficiency improvement programme within the company.

MATERIAL DEVELOPMENTS IN HUMAN RESOURCES, INDUSTRIAL RELATIONS

The spread of COVID-19 has disrupted businesses worldwide which has led to dramatic changes in how businesses act and the way stakeholders behave. In just a few months' time, the COVID-19 crisis has brought about years of change in the way Companies do business and work environment. Despite the havoc wreaked by COVID-19 pandemic in last two years, with our collective efforts and steadily improving confidence, we have attained good progress in business. To stay competitive in the business and economic environment, we focused on our strategy and continued bringing new practices by keeping the business & our employees at the core. Three ways the Company has mitigated uncertainty is by adopting Digitalization & Innovation, by redesigning work processes & by enhancing our employee experience. With this backdrop, we have implemented various measures like restructuring the organization of various departments to meet the business expectations, introduction of new business segments and Innovation Cell, Diversity & Inclusion, Employee Engagement activities, Open Communication Platforms, focus

on Health and Safety to embrace the culture of strong Values. The Company has been attentive towards health of our employees and workmen through vaccination camps and support to family of the deceased employees and workmen due to COVID-19. To deliver sustainable organizational performance, we focused upon skill and knowledge enhancement, retention of employees, leadership development, performance management and employee engagement mixing it with the comparable amount of process reformation. The process advancement affected the way employees are hired, developed and managed to the way they communicate, interact and contribute to the business requirement. Our constant efforts on the Reward and Recognition, Competence and Career Development, Development of Infrastructure, Communication Mechanisms, Succession Planning and Compensation restructuring and revision helped us to mark our attrition rate much below than the industry standard. Healthy employee relations at all plants ensured balanced and responsible operations having a great impact on the quality of products and services and in establishing us as a strong brand in the market. For 60+ years, KSB India has been committed to sustainable and responsible business practices. Under this initiative we are focusing and building on our sustainability principles like Environmental protection, Social commitments and Governance Culture. We believe this will continue to make a big difference to trust, confidence, inclusion and effective stakeholder engagement. We continue with our virtuous employee experience and will strive for better employee engagement score in the upcoming time.

SECTION E: PRINCIPLE-WISE PERFORMANCE

Principle 1: Businesses should conduct and govern themselves with Ethics, Transparency and Accountability

1. Does the policy relating to ethics, bribery and corruption cover only the company? Yes/No.

Does it extend to the Group/ Joint Ventures/ Suppliers/ Contractors/ NGOs/Others?

No. The Policy extends to the group, suppliers, dealers, service providers, contractors and all relevant stakeholders.

2. How many stakeholder complaints have been received in the past financial year and what percentage was satisfactorily resolved by the management? If so, provide details thereof, in about 50 words or so.
Nil

BUSINESS RESPONSIBILITY REPORT (Contd.)

Principle 2: Businesses should provide goods and services that are safe and contribute to sustainability throughout their life cycle.

1. List up to 3 of your products or services whose design has incorporated social or environmental concerns, risks and/or opportunities.
 - i. Stainless steel Sheet metal pumps and DC motors (corrosion free Pump and high efficiency motors)
 - ii. Vertical can (barrel) inserted pump WKTR 200 (for API market)
 - iii. Gamma (Horizontal split case Water handling pumps)
2. For each such product, provide the following details in respect of resource use (energy, water, raw material etc.) per unit of product (optional):
 - (a) Reduction during sourcing/ production/ distribution achieved since the previous year throughout the value chain?
 - (b) Reduction during usage by consumers (energy, water) has been achieved since the previous year?

The above products are energy efficient designs and hence lead to conservation of drive power i.e. electricity as well as reducing environmental pollution.

- i. CORACHROM pumps and KSB SOL DC : To achieve better product quality and long service life, stainless steel sheet metal pumps are launched to cater solar as well as conventional business. Special DC motors developed for Solar application are highly efficient and can work on solar power. This helps to protect the environment.
 - ii. WKTR 200 : The vertical cannister multistage pump series has been developed by optimizing weights and hydraulics for refinery and petrochemical market. Due to their maintenance friendly design and optimised hydraulics, lesser input power will be consumed there by reducing electricity requirement. With Mech seal emissions of petrochemical products to environment is also avoided
 - iii. Gamma : This horizontal split case pump series is developed and launched by optimizing weights and hydraulics with intention of providing light weight efficient and maintenance friendly product. Weight reduction is to the tune of 15 % which will save the material cost thus requiring lesser raw material and reduce the pollution to surroundings
3. Does the company have procedures in place for sustainable sourcing (including transportation)?
If yes, what percentage of your inputs was sourced sustainably?

The supplier selection, assessment and evaluation process includes elements of sustainability. This includes audits by internal Quality Management as well external audits like “Made by KSB” are carried out by the parent entity viz. KSB SE, Germany. KSB ensures contractual agreement with logistic providers for safe transportation of goods. More than 50% goods were sourced sustainably based on mentioned sourcing criteria.

Various aspects of sustainability are laid down in procurement activity e.g. legal compliance, health, safety and environmental protection. Bribery and corruption is addressed by a statement forming part of the purchase order documentation. The Company respects rules of free competition and has built strong partnerships with suppliers.

4. Has the company taken any steps to procure goods and services from local & small producers, including communities surrounding their place of work? If yes, what steps have been taken to improve their capacity and capability of local and small vendors?

Overall large portion of goods to the extent of 55 % is sourced from small and medium enterprises. The Company continuously looks for opportunities to source its material locally. Local suppliers are

BUSINESS RESPONSIBILITY REPORT (Contd.)

generally preferred if they meet quality specifications and cost criteria as well Environment, Health and Safety (“EHS”) compliance. Suppliers are audited and supported for the development. Outsourcing to local suppliers is ongoing activity. A structured development plan is in place for localization. Further, components and products have been identified which are currently imported. Support is provided to suppliers for local manufacturing.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at December 31, 2021, total comprehensive income (comprising of profit and other comprehensive income), changes in equity and it cash flows for the year then ended.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

4. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Other Information

5. The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Board's Report but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Responsibilities of management and those charged with governance for the Standalone financial statements

6. The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance,

changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

7. In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

INDEPENDENT AUDITORS' REPORT (Contd.)

Auditor's responsibilities for the audit of the financial statements

8. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.
9. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to standalone financial statements in place and the operating effectiveness of such controls.
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
 - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
10. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
11. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
12. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

INDEPENDENT AUDITORS' REPORT (Contd.)

Report on other legal and regulatory requirements

13. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the Annexure B a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
14. As required by Section 143(3) of the Act, we report that:
- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - (c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the Statement of Changes in Equity and Statement of Cash Flows dealt with by this Report are in agreement with the books of account.
 - (d) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act.
 - (e) On the basis of the written representations received from the directors as on December 31, 2021 taken on record by the Board of Directors, none of the directors is disqualified as on December 31, 2021 from being appointed as a director in terms of Section 164 (2) of the Act.
 - (f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".
 - (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations as at December 31, 2021 on its financial position in its financial statements – Refer Note 19(b) and 31(a) to the standalone financial statements.
 - ii. The Company has made provision as at December 31, 2021, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts. The Company did not have any long-term derivative contracts as at December 31, 2021.
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company during the year ended December 31, 2021.
 - iv. The reporting on disclosures relating to Specified Bank Notes is not applicable to the Company for the year ended December 31, 2021.
15. The Company has paid/ provided for managerial remuneration in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Act.

ANNEXURE TO INDEPENDENT AUDITORS' REPORT

ANNEXURE A TO INDEPENDENT AUDITORS' REPORT

Referred to in paragraph 14(f) of the Independent Auditors' Report of even date to the members of KSB Limited on the standalone financial statements for the year ended December 31, 2021

Report on the Internal Financial Controls with reference to financial statements under Clause (i) of Sub-section 3 of Section 143 of the Act

1. We have audited the internal financial controls with reference to standalone financial statements of KSB Limited ("the Company") as of December 31, 2021 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial

Reporting (the "Guidance Note") and the Standards on Auditing deemed to be prescribed under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an understanding of internal financial controls with reference to standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to standalone financial statements.

Meaning of Internal Financial Controls with reference to financial statements

6. A company's internal financial controls with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with

ANNEXURE TO INDEPENDENT AUDITORS' REPORT (Contd.)

reference to standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

7. Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial control

controls with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, an adequate internal financial controls system with reference to standalone financial statements and such internal financial controls with reference to standalone financial statements were operating effectively as at December 31, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE B TO INDEPENDENT AUDITORS' REPORT

Referred to in paragraph 13 of the Independent Auditors' Report of even date to the members of KSB Limited on the Standalone Financial Statements as of and for the year ended December 31, 2021

- i.
 - (a) The Company is maintaining proper records showing full particulars, including quantitative details and situation, of fixed assets.
 - (b) The fixed assets are physically verified by the Management according to a phased programme designed to cover all the items over a period of 3 years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the programme, a portion of the fixed assets has been physically verified by the Management during the year and no material discrepancies have been noticed on such verification.
 - (c) The title deeds of immovable properties, as disclosed in Note 3 – Property, plant and equipment and Note 4 – Right-of-use assets (Leasehold land) to the standalone financial statements, are held in the name of the Company.
- ii. The physical verification of inventory excluding stocks with third party managed warehouse have been conducted at reasonable intervals by the Management during the year. In respect of inventory lying with third parties, these have substantially been confirmed by them. The discrepancies noticed on physical verification of inventory as compared to book records were not material and have been appropriately dealt with in the books of accounts.
- iii. The Company has not granted any loan secured or unsecured, to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under Section 189 of the Act. Therefore, the provisions of Clause 3(iii), (iii)(a), (iii)(b) and (iii)(c) of the said Order are not applicable to the Company.
- iv. The Company has not granted any loans or made any investments or provided any guarantees or security to the parties covered under Section 185 and 186. Therefore, the provisions of Clause 3(iv) of the said Order are not applicable to the Company.
- v. The Company has not accepted any deposits from the public within the meaning of Sections 73, 74, 75 and 76 of the Act and the Rules framed there under to the extent notified.
- vi. Pursuant to the rules made by the Central Government of India, the Company is required to maintain cost records as specified under Section 148(1) of the Act in respect of its products. We have broadly reviewed the same, and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. We have not, however, made a detailed examination of the records with a view to determine whether they are accurate or complete.
- vii.
 - (a) According to the information and explanations given to us and the records of the Company examined by us, in our opinion, the Company is regular in depositing the undisputed statutory dues in respect of employees' state insurance, income tax and goods and services tax though there has been a slight delay in a few cases and is regular in depositing undisputed statutory dues, including provident fund, sales tax, service tax, duty of customs, duty of excise, value added tax, cess and other material statutory dues as applicable, with the appropriate authorities.
 - (b) According to the information and explanations given to us and the records of the Company examined by us, there are no dues of sales tax, duty of customs, value added tax which have not been deposited on account of any dispute. The particulars of dues of income tax, goods and services tax, service tax, duty of excise as at December 31, 2021 which have not been deposited on account of a dispute, are as follows:

- viii. According to the records of the Company examined by us and the information and explanation given to us, the Company has not defaulted in repayment of loans or borrowings to any financial institution or bank or Government or dues to debenture holders as at the balance sheet date. The Company has not issued any debenture as at balance sheet date.
- ix. The Company has not raised any moneys by way of initial public offer, further public offer (including debt instruments) and term loans. Accordingly, the provisions of Clause 3(ix) of the Order are not applicable to the Company.
- x. During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, and according to the information

and explanations given to us, we have neither come across any instance of material fraud by the Company or on the Company by its officers or employees, noticed or reported during the year, nor have we been informed of any such case by the Management.

- xi. The Company has paid/ provided for managerial remuneration in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Act. Also refer paragraph 15 of our standalone audit report.
- xii. As the Company is not a Nidhi Company and the Nidhi Rules, 2014 are not applicable to it, the provisions of Clause 3(xii) of the Order are not applicable to the Company.

ANNEXURE TO INDEPENDENT AUDITORS' REPORT

- xiii. The Company has entered into transactions with related parties in compliance with the provisions of Sections 177 and 188 of the Act. The details of related party transactions have been disclosed in the financial statements as required under Indian Accounting Standard (Ind AS) 24, Related Party Disclosures, Related Party Disclosures specified under Section 133 of the Act.
- xiv. The Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year under review. Accordingly, the provisions of Clause 3(xiv) of the Order are not applicable to the Company.
- xv. The Company has not entered into non-cash transactions with its directors or persons connected with him. Accordingly, the provisions of Clause 3(xv) of the Order are not applicable to the Company.
- xvi. The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the provisions of Clause 3(xvi) of the Order are not applicable to the Company.

Notes forming part of the financial statements

(All amounts are in ₹ million, unless otherwise stated)

	<p>Background:</p> <p>KSB Limited (the 'Company') is a public limited Company domiciled in India with its registered office located at Office No. 601, Runwal R-Square, L.B.S Marg, Mulund (West), Mumbai – 400 080. The Company is listed on Bombay Stock Exchange (BSE) and National Stock Exchange (NSE). The Company is engaged in the business of manufacture of different types of power-driven pumps and industrial valves. Castings are mainly produced for captive consumption. CIN of the Company is L29120MH1960PLC011635.</p> <p>The financial statements have been authorized for issue by the Board of Directors on February 24, 2022.</p>
1.	<p>Summary of significant accounting policies:</p> <p>This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.</p>
(a)	<p>Basis of preparation</p> <p>(i) Compliance with Ind AS</p> <p>The financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015, as amended from time to time] and other relevant provisions of the Act.</p> <p>(ii) Historical cost convention</p> <p>The financial statements have been prepared on a historical cost basis, except for the following:</p> <ul style="list-style-type: none"> • Certain financial assets and liabilities (including derivative instruments) that are measured at fair value • Defined benefit plans - plan assets measured at fair value. <p>All assets and liabilities have been classified as current or non-current as per the Company's operating cycle and other criteria set out in the Schedule III of the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.</p>
(b)	<p>New and amended standards adopted by the Company</p> <p>The Company has adopted the following amendments to Ind AS with effect from January 1, 2021:</p> <ul style="list-style-type: none"> • Definition of Material – amendments to Ind AS 1 'Presentation of Financial Statements' and Ind AS 8 'Accounting Policies, Changes in Accounting Estimates and Errors' • Definition of a Business – amendments to Ind AS 103 'Business Combinations' • COVID-19 related concessions – amendments to Ind AS 116 'Leases' <p>The amendments listed above did not have any impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.</p>
(c)	<p>Segment reporting</p> <p>Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker is the Company's board of directors. Refer note 34 for segment information presented.</p>
(d)	<p>Foreign currency translation</p> <p>(i) Functional and presentation currency</p> <p>Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the entity operates (the 'functional currency'). The financial statements are presented in Indian rupee ₹, which is the Company's functional and presentation currency.</p>

Notes forming part of the financial statements (Contd.)

(All amounts in ₹ million, unless otherwise stated)

(ii)	<p>Transactions and balances</p> <p>Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end are recognised in profit and loss and are presented in the Statement of Profit and Loss on a net basis.</p> <p>Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.</p>
(e)	<p>Revenue recognition</p> <p>Ind AS 115 Revenue from Contracts with Customers deals with revenue recognition and establishes principles for reporting useful information to users of financial statements about the nature, amount, timing and uncertainty of revenue and cash flows arising from an entity's contracts with customers. Revenue is recognised when a customer obtains control of a promised good or service and thus has the ability to direct the use and obtain the benefits from the good or service in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods and services.</p> <p>The five-step process must be applied before revenue can be recognised:</p> <ol style="list-style-type: none"> (i) identify contracts with customers (ii) identify the separate performance obligation (iii) determine the transaction price of the contract (iv) allocate the transaction price to each of the separate performance obligations, and (v) recognise the revenue as each performance obligation is satisfied. <p>(i) Revenue from sale of products</p> <p>The Company accounts for a contract when it has approval and commitment from parties involved, the rights of the parties are identified, payment terms are identified, the contract has commercial substance and collectability of consideration is probable.</p> <p>Company generate revenue from sale of pumps, valves and related support services. The Company may promise to provide distinct goods or services within a contract, for example when a contract covers multiple promises (e.g., supply of pumps, motors and spares), in which case the Company separates the contract into more than one performance obligation. If a contract is separated into more than one performance obligation, the Company allocates the total transaction price to each performance obligation on the basis of the relative standalone selling price of each distinct product or service promised in the contract. Where standalone selling price is not observable, the Company uses the expected cost-plus margin approach to allocate the transaction price to each distinct performance obligation.</p> <p>The Company assesses for the timing of revenue recognition in case of each distinct performance obligation. The Company first assesses whether the revenue can be recognized over time as it performs if any of the following criteria is met:</p> <ol style="list-style-type: none"> (a) The customer simultaneously consumes the benefits as the Company performs, or (b) The customer controls the work-in-progress, or (c) The Company's performance does not create an asset with alternative use to the Company and the Company has right to payment for performance completed till date <p>If none of the criteria above are met, the Company recognizes revenue at a point-in-time. The point-in-time is determined when the control of the goods or services is transferred which is generally determined based on when the significant risks and rewards of ownership are transferred to the customer. Apart from this, the Company also considers its present right to payment, the legal title to the goods, the physical possession and the customer acceptance in determining the point in time where control has been</p>

Notes forming part of the financial statements (Contd.)

(All amounts are in ₹ million, unless otherwise stated)

	<p>transferred.</p> <p>The Company uses input method to measure the progress for contracts because it best depicts the transfer of control to the customer which occurs as it incurs costs on contracts. Under the input method measure of progress, the extent of progress towards completion is measured based on the ratio of costs incurred to date to the total estimated costs at completion of the performance obligation. Revenues, including estimated fees or profits, are recorded proportionally as costs are incurred.</p> <p>Due to the nature of the work required to be performed on performance obligations, the estimation of total revenue and cost at completion is complex, subject to many variables and requires significant judgment. It is common for project contracts to contain penalties, bonuses or other provisions that can either increase or decrease the transaction price. These variable amounts generally are awarded upon achievement of certain performance metrics, program milestones or cost targets and may be based upon customer discretion.</p> <p>The Company estimates variable consideration using expected value method of probability-weighted values at an amount to which it expects to be entitled. The Company includes estimated amounts in the transaction price to the extent it is probable that a significant reversal of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is resolved. The estimates of variable consideration and determination of whether to include estimated amounts in the transaction price are based largely on an assessment of the anticipated performance and all information (historical, current and forecasted) that is reasonably available.</p> <p>Contracts are modified to account for changes in contract specifications and requirements. The Company considers contract modifications to exist when the modification either creates new or changes the existing enforceable rights and obligations. Most of the contract modifications are for goods or services that are not distinct from the existing contract due to the significant integration service provided in the context of the contract and are accounted for as if they were part of that existing contract. The effect of a contract modification on the transaction price and measure of progress for the performance obligation to which it relates, is recognized as an adjustment to revenue (either as an increase in or a reduction of revenue) on a cumulative catch-up basis.</p> <p>When estimates of total costs to be incurred exceed total estimates of revenue to be earned on a performance obligation related to a contract, a provision for the entire loss on the performance obligation is recognized in the period.</p> <p>Revenue recognised at a point-in-time</p> <p>For sale of products, revenue is recognised at point in time when control of goods is transferred to the customer - based on delivery terms, payment terms, customer acceptance and other indicators of control as mentioned above.</p> <p>(ii) Revenue from sale of services</p> <p>Company generate revenue from sale of pumps, valves and related support services. Revenue from services is recognised in the accounting period in which the services are rendered.</p> <p>(iii) Other operating revenue</p> <p>Revenue comprising of income from ancillary activities incidental to the operations of the Company is recognized when the right to receive the income is established as per the terms of the contract. Revenue from export incentives majorly comprises of Duty drawback and Merchandise Export Incentive Scheme (MEIS) which are recognised on an accrual basis at specified rates. Refer note 21.</p> <p>(iv) Other income</p> <p>Interest income:</p> <p>Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable. Interest income is included in Other income in the Statement of Profit and Loss.</p>
--	---

Notes forming part of the financial statements (Contd.)

(All amounts in ₹ million, unless otherwise stated)

	<p>Dividends:</p> <p>Dividends are recognised in the Statement of Profit and Loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of the dividend can be measured reliably.</p>
(f)	<p>Income tax</p> <p>The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.</p> <p>The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulations is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.</p> <p>Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.</p> <p>Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.</p> <p>Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.</p> <p>Current and deferred tax is recognised in Statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.</p>
(g)	<p>Government grants</p> <p>Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received, and the Company will comply with all attached conditions. Government grants relating to income are recognised in the Statement of Profit and Loss. Refer note 1(e)(iii) for accounting policy related to Duty drawback and Merchandise Export Incentive Scheme (MEIS).</p> <p>When government or related institutions provide concession in interest on borrowings or loans availed by the Company from financial institutions, such interest concession is regarded as a government grant. The Company accounts for the interest paid at concessional rate on packing credit facility availed for export of goods.</p>
(h)	<p>Leases</p> <p>Effective January 1, 2020, the Company has adopted Ind AS 116 - Leases, using the 'Modified Retrospective Approach' for transition from Ind AS 17 - Leases, with no impact to the retained earnings as at January 1, 2020. Accordingly, the comparatives have not been retrospectively adjusted.</p> <p><i>As a lessee:</i></p> <p>Leases are recognised as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Company. Each lease payment is allocated between the principal (liability) and finance cost. The finance cost is charged to the Statement of Profit and Loss over the lease period so as to produce a</p>

(All amounts are in ₹ million, unless otherwise stated)

	<p>constant periodic rate of interest on the remaining balance of the liability for each period.</p> <p>Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the fixed payments (including in-substance fixed payments), less any lease incentives receivable.</p> <p>Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability. The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, the lessee's incremental borrowing rate is used, being the rate that the lessee would have to pay to borrow the funds necessary to obtain an asset of similar value in a similar economic environment with similar terms and conditions.</p> <p>Right-of-use assets are measured at cost comprising the following:</p> <ul style="list-style-type: none"> ● the amount of the initial measurement of lease liability ● any lease payments made at or before the commencement date less any lease incentives received ● any initial direct costs, and ● restoration costs. <p>Right-of-use asset is depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the Company is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset's useful life.</p> <p>Payments associated with short-term leases and leases of low-value assets are recognised on a straight-line basis as an expense in the Statement of Profit and Loss. Short-term leases are leases with a lease term of 12 months or less.</p>
(i)	<p>Impairment of assets</p> <p>The management periodically assesses, using external and internal sources, whether there is an indication that an asset may be impaired. If an asset is impaired, the Company recognises an impairment loss as the excess of the carrying amount of the asset over the recoverable amount. Recoverable amount is higher of an asset's or cash generating unit's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. An impairment loss is reversed to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined if no impairment loss had previously been recognised.</p>
(j)	<p>Cash and cash equivalents</p> <p>For the purpose of presentation in the Statement of Cash Flows, cash and cash equivalents include cash on hand, balances with banks in current accounts and EEFC accounts, fixed deposits with banks with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet. Other bank balances include fixed deposits with original maturities of more than three months and earmarked accounts which includes unpaid dividend.</p>
(k)	<p>Trade receivables</p> <p>Trade receivables are amounts due from customers for goods sold and services performed in the ordinary course of business. Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment and liquidated damages.</p>
(l)	<p>Borrowing costs</p> <p>Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised as part of the cost of that asset. Other borrowing costs are recognised as an expense in the year in which they are incurred.</p>
(m)	<p>Inventories</p> <p>Inventories are valued at the lower of cost and net realisable value.</p>

Notes forming part of the financial statements (Contd.)

(All amounts in ₹ million, unless otherwise stated)

	<p>Cost of raw materials, components, stores, spares, loose tools and traded goods comprises cost of purchases. Cost of work-in progress and finished goods comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition. Costs are assigned to individual items of inventory on the basis of weighted average basis. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.</p> <p>(n) Financial assets</p> <p>(i) Classification</p> <p>The Company classifies its financial assets in the following measurement categories:</p> <ul style="list-style-type: none"> ● those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and ● those measured at amortised cost. <p>The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.</p> <p>For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held.</p> <p>For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.</p> <p>The Company reclassifies debt investments when and only when its business model for managing those assets changes.</p> <p>(ii) Measurement</p> <p>At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in Statement of Profit and Loss.</p> <p>Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.</p> <p>Debt instruments</p> <p>Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. The Company classifies its debt instruments as follows:</p> <ul style="list-style-type: none"> ● Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in other income using the effective interest rate method. <p>Equity instruments</p> <p>The Company subsequently measures equity investment at fair value. The Company's Management elects to present fair value gains and losses on equity investments in other comprehensive income on an instrument by instrument basis.</p> <p>(iii) Impairment of financial assets</p> <p>The Company assesses on a forward-looking basis the expected credit loss associated with its assets</p>

	<p>carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Refer note 36(A) for details of credit risk.</p> <p>For trade receivables, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.</p>				
(iv)	<p>Derecognition of financial assets</p> <p>A financial asset is derecognised only when</p> <ul style="list-style-type: none"> • The Company has transferred the rights to receive cash flows from the financial asset or • retains the contractual rights to receive the cash flows of the financial asset but assumes a contractual obligation to pay the cash flows to one or more recipients. <p>Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.</p> <p>Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.</p>				
(o)	<p>Derivatives</p> <p>The Company enters into certain derivative contracts to hedge risks which are not designated as hedges. Such contracts are accounted for at fair value through profit or loss.</p>				
(p)	<p>Offsetting financial instruments</p> <p>Financial assets and liabilities are offset, and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.</p>				
(q)	<p>Property, plant and equipment</p> <p>Freehold land is stated at historical cost. All other items of property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.</p> <p>Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to the Statement of Profit and Loss during the reporting period in which they are incurred.</p> <p>Depreciation methods, estimated useful lives and residual value</p> <p>Depreciation is provided on the straight-line method/ written down value method over the useful lives of assets which has been assessed as under the technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, maintenance support, etc., which are different from those prescribed in Schedule II to the Companies Act, 2013 (Act) except for server and networking (SLM) and furniture and fixtures (WDV) which are same as prescribed in Schedule II to the Act. Estimated useful lives of assets are as follows:</p> <table border="1"> <thead> <tr> <th>Asset</th> <th>Useful life</th> </tr> </thead> <tbody> <tr> <td></td> <td></td> </tr> </tbody> </table>	Asset	Useful life		
Asset	Useful life				

Notes forming part of the financial statements (Contd.)

(All amounts in ₹ million, unless otherwise stated)

	Buildings	43 to 90 years (WDV)
	Plant and equipment	09 to 21 years (SLM)
	Vehicles	05 to 11 years (WDV)
	Office equipment	10 years (SLM)
	Computer equipment	06 years (SLM)
	The property, plant and equipment acquired under finance leases is depreciated over the asset's useful life or over the shorter of the asset's useful life and the lease term if there is no reasonable certainty that the Company will obtain ownership at the end of the lease term. Leasehold land and assets taken on lease are amortized over the period of the lease.	
	The asset's residual values and useful lives are reviewed and adjusted if appropriate, at the end of the reporting period.	
	An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.	
	Net gains or net losses on disposals are determined by comparing proceeds with carrying amount. These are included in the Statement of Profit and Loss under other income or other expenses respectively.	
(r)	Intangible assets	
	Intangible assets are stated at acquisition cost net of tax/ duty credits availed, if any, and net of accumulated amortisation. Gains or losses arising from the retirement or disposal of an intangible asset are determined as the difference between the net disposal proceeds and the carrying amount of the asset and recognised as income or expense in the Statement of Profit and Loss. Intangible assets are amortized on the straight-line method as follows:	
	Asset	Useful life
	Rights, techniques, process	7 to 10 years
	Computer software	3 years
(s)	Trade and other payables	
	These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. Trade and other payables are unsecured and are presented as current liabilities unless payment is not due within operating cycle determined by the Company after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.	
(t)	Provisions and Contingent liabilities	
	Provisions are recognised when the Company has a present, legal or constructive obligation as a result of a past event and it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made. Provisions are determined based on the best estimate required to settle the obligation at the Balance Sheet date. Provisions are reviewed at each Balance Sheet date and adjusted to reflect current best estimates. Provisions are not recognised for future operating losses. Provision for warranty is computed as a percentage of sales based on the past trends observed.	
	Contingent liabilities are disclosed by way of a note to the financial statements when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.	
(u)	Employee benefits	
	(i)	Short-term obligations

Notes forming part of the financial statements (Contd.)

(All amounts are in ₹ million, unless otherwise stated)

	<p>Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.</p>
(ii)	<p>Other long-term employee benefit obligations</p> <p>The liabilities for Other long-term employee benefits such as long service award, privileged leave and sick leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in the Statement of Profit and Loss. The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.</p>
(iii)	<p>Post-employment obligations</p> <p>The Company operates the following post-employment schemes:</p> <p>(a) Defined benefit plans - gratuity and superannuation</p> <p>(b) Defined contribution plans - provident fund</p> <p>(a) Defined benefit plans - gratuity and superannuation</p> <p>(i) Gratuity</p> <p>The Company provides for gratuity, a defined benefit plan (the "Gratuity Plan") covering eligible employees in accordance with the Payment of Gratuity Act, 1972, as amended from time to time. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death or termination of employment, of an amount based on the respective employee's salary and the tenure of employment.</p> <p>The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.</p> <p>The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.</p> <p>The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in finance cost in the Statement of Profit and Loss.</p> <p>Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the Statement of Changes in Equity and in the Balance Sheet.</p> <p>Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in the Statement of Profit and Loss as past service cost.</p> <p>(ii) Superannuation</p> <p>Superannuation is a benefit to certain employees (depending on the grade / category of the employee and completed years of service) per month for each completed year of service.</p> <p>(b) Defined Contribution Plans</p>

Notes forming part of the financial statements (Contd.)

(All amounts in ₹ million, unless otherwise stated)

	<p>The Company pays provident fund contributions for all employees to publicly administered provident funds as per local regulations. The Company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefits expense when they are due.</p>
(v)	<p>Dividends</p> <p>The Company recognizes provision for Dividend and the tax thereupon, if any, once the Dividend is approved by the shareholders in the annual general meeting.</p>
(w)	<p>Contributed equity</p> <p>Equity shares are classified as equity.</p> <p>Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.</p>
(x)	<p>Earnings per share</p> <p>(i) Basic Earnings per share</p> <p>Basic earnings per share is calculated by dividing:</p> <ul style="list-style-type: none"> ● the net profit for the period attributable to equity shareholders ● by the weighted average number of equity shares outstanding during the financial year. <p>Earnings considered in ascertaining the Company's earnings per share is the net profit for the period after deducting any attributable tax thereto for the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares that have changed the number of equity shares outstanding, without a corresponding change in resources.</p> <p>(ii) Diluted Earnings per share</p> <p>Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:</p> <ul style="list-style-type: none"> ● the after-income tax effect of interest and other financing costs associated with dilutive potential equity shares, and ● the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.
(y)	<p>Rounding of amounts:</p> <p>Amounts disclosed in the financial statements are presented in INR in million rounded off to two decimal places as permitted by Schedule III to the Companies Act, 2013, unless otherwise stated.</p>
2.	<p>Significant accounting judgements, estimates and assumptions</p> <p>The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the company's accounting policies. Estimates and assumptions are continuously evaluated and are based on historical experience and other factors including expectations of future events that are believed to be reliable and relevant under the circumstances. This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Management believes that the estimates are the most likely outcome of future events. Detailed information about each of these estimates and judgements is described below.</p> <p>Judgements</p> <p>In the process of applying the Company's accounting policies, Management has made the following</p>

Notes forming part of the financial statements (Contd.)

(All amounts in ₹ million, unless otherwise stated)

<p>judgements, which have the most significant effect on the amounts recognized in the financial statements:</p> <p>i. Legal contingencies</p> <p>The Company has received various orders and notices from tax authorities in respect of direct taxes and indirect taxes. The outcome of these matters may have a material effect on the financial position, results of operations or cash flows. Management regularly analyzes current information about these matters and provides provisions for probable contingent losses including the estimate of legal expense to resolve the matters. In making the decision regarding the need for loss provisions, management considers the degree of probability of an unfavorable outcome and the ability to make a sufficiently reliable estimate of the amount of loss. The filing of a suit or formal assertion of a claim against the Company or the disclosure of any such suit or assertions, does not automatically indicate that a provision of a loss may be appropriate.</p> <p>ii. Revenue Recognition on Contracts with Customers</p> <p>Company generate revenue from sale of Pumps, valves and related support services. Company uses judgement with respect to accounting of multiple contracts which need to be combined and considered as single contract. The Company exercises judgement with respect to identifying contracts for which revenue need to be recognised point in time or over a period of time, depending upon when customer consumes the benefit, when the control is passed to customer, whether asset created has an alternative use and whether the Company has right to payment for performance completed till date, either contractually or legally.</p> <p>iii. Ind AS 116 – Leases</p> <p>In determining the lease term, management consider all facts and circumstances that create an economic incentive to exercise an extension option or not to exercise a termination option. Extension options (or periods after termination options) are only included in the lease term if the lease is reasonably certain to be extended (or not terminated).</p> <p>For leases of offices and equipment's, the following factors are normally the most relevant:</p> <ul style="list-style-type: none"> ● If there are significant penalties to terminate (or not extend), the Company is reasonably certain to extend (or not terminate). ● If any leasehold improvements are expected to have a significant remaining value, the Company is reasonably certain to extend (or not terminate). ● The Company consider other factors including historical lease durations and the costs and business disruption required to replace the leased asset. Most extension options in offices and equipment leases have not been included in the lease liability, because the Company could replace the assets without significant cost or business disruption. <p>The lease term is reassessed periodically whether an option is actually exercised (or not exercised) or the Company becomes obliged to exercise (or not exercise) it. The assessment of reasonable certainty is only revised if a significant event or a significant change in circumstances occurs, which affects this assessment, and that is within the control of the lessee.</p> <p>The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the Company, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.</p> <p>Estimates and assumptions</p> <p>The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and</p>

	<p>assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.</p> <p>i. Warranty</p> <p>The Company generally offers an 18 months warranty for its products, except for certain projects where the warranty offered may be higher to meet specific project requirements. Warranty costs are determined as a percentage of sales based on the past trends of the costs required to be incurred for repairs, replacements, material costs and servicing cost. Management estimates the related closing provision as at Balance Sheet date for future warranty claims based on historical warranty claim information, as well as recent trends that might suggest that past information may differ from future claims. The assumptions made in current period are consistent with those in the prior year. As the time value of money is not considered to be material, warranty provisions are not discounted. Refer note 19 for further information.</p> <p>ii. Gratuity</p> <p>The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuation. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, attrition rate, mortality rates and expected return on planned assets. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at the year end. The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation. The mortality rate is based on Indian Assured Lives Mortality (2012-14) Ultimate. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates. For further details about gratuity obligations are given in note 32.</p> <p>iii. Recoverability of trade receivables</p> <p>Judgements are required in assessing the recoverability of overdue trade receivables and determining whether a provision against those receivables is required. Factors considered include the credit rating of the counterparty, the amount and timing of anticipated future payments and any possible actions that can be taken to mitigate the risk of non-payment. Refer note 36(A) for further details.</p> <p>iv. Inventories</p> <p>An inventory provision is recognized for cases where the realizable value is estimated to be lower than the inventory carrying value. The inventory provision is estimated taking into account various factors, including prevailing sale prices of inventory item and losses associated with obsolete/slow moving/redundant inventory items. The Company has, based on these assessments, made adequate provision in the books.</p>

- (i) The Government of India has introduced 'Direct Tax Vivad Se Vishwas Act, 2020' which allows the assesses to settle the ongoing Income-tax litigations at various Adjudicating authorities. In this regard, the Company found it commercially expedient to put an end to continuous prolonged litigation and to get complete waiver of interest liability and immunity from penalty. Accordingly, the Company filed an application with the Income-tax authorities to avail the option as given under the said Act and to settle all the ongoing Income-tax litigations at various Adjudicating authorities pertaining to Assessment years from 2009-10 to 2016-17. The said application has been accepted by the Income-tax authorities. In the year ended December 31, 2021, the Company has paid ₹ 113.94 million towards the settlement of disputed Income-tax liability of ₹ 198.89 million, after adjusting of the refunds due, to the extent of ₹ 84.95 million. In this regard, the Company had recognized the provision of ₹ 190.38 million in the year ended December 31, 2020 in addition to the existing provision of INR 8.51 million.

A Defined contribution plan

Contributions are made to provident fund at a fixed percentage of employee's salary as per the regulations. The contributions are made to registered provident fund administered by the government. The obligation of the Company is limited to the amount contributed and it has no further contractual nor any constructive obligation. The expense recognised during the year towards contribution to provident fund is ₹ 82.60 million (December 31, 2020 - ₹ 69.24 million).

B Compensated absences

The leave obligations cover the Company's liability for privilege leave and sick leave. The amount of provision made during the year is ₹ 42.61 million (December 31, 2020 - ₹ 50.14 million). The Company does not have an unconditional right to defer settlement for any of these obligations. However, based on past experience, the Company does not expect all employees to take the full amount of accrued leave or require payment within twelve months and accordingly, amounts have been classified as current and non-current.

C Long service award

The Company award all the employees who complete 25 years of service in the Company and the Workmen employees who complete 20 or more years of service in the Company but unable to complete 25 years due to superannuation. The amount of provision made during the year is ₹ 50.74 million (December 31, 2020 - ₹ Nil).

Attrition rate		
1 % increase	(4.80)	(3.89)
1 % decrease	3.57	5.23

The above sensitivity analysis have been determined based on reasonable possible changes of the respective assumptions occurring at the end of the year and may not be representative of the actual change. It is based on a change in the key assumption while holding all other assumptions constant. When calculating the sensitivity to the assumption, the same method is used to calculate the liability recognised in the Balance Sheet. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the previous year.

Funds managed by insurer	100%	100%

Risk exposure for the above plans

Through its defined benefit plan, the Company is exposed to a number of risks, the most significant of which are detailed below:

(i) Asset-liability mismatch risk

Risk which arises if there is a mismatch in the duration of the assets relative to the liabilities. In managing the plan assets, Board of Trustees reviews and manages these risks associated with the funded plan. Each year, the Board of Trustees reviews the level of funding in the gratuity plan. Such a review includes asset - liability matching strategy and investment risk management policy (which includes contributing to plans that invest in risk averse markets). The Board of Trustees aim to keep annual contributions relatively stable at a level such that no plan deficits (based on valuation performed) will arise.

Notes forming part of the financial statements (Contd.)

(ii) Asset volatility

All plan assets are maintained in a trust fund managed by a public sector insurer i.e., LIC of India. LIC has a sovereign guarantee and has been providing consistent and competitive returns over the years. The Company has opted for a traditional fund wherein all assets are invested primarily in risk averse markets. The Company has no control over the management of funds but this option provides a high level of safety for the total corpus. A single account is maintained for both the investment and claim settlement and hence, 100% liquidity is ensured. Also, interest rate and inflation risk are taken care of.

(iii) Discount rate risk

The present value of the defined benefit obligation is calculated using discount rate based on Government bonds. The decrease in the bond yield will increase the defined benefit obligation, however the same will be partially offset by an increase in value of plan assets.

(iv) Future salary escalation risk

The present value of the defined benefit obligation is calculated by reference to the future salaries of plan participants. As such, an increase in salary of the plan participants will increase the defined benefit obligation.

34 Segment reporting

As per Ind AS 108 Operating Segments, when a financial report contains both consolidated financial statements and separate financial statements for the parent, segment information needs to be presented only in case of consolidated financial statements. Accordingly, segment information has been provided only in the consolidated financial statements.

Notes forming part of the financial statements (Contd.)

35 Fair value measurements

Except derivative instruments, all financial assets and financial liabilities are measured at amortised cost. Derivative instruments are classified as fair value through profit or loss. The fair value is determined using forward exchange rates at the balance sheet date. The instruments fall under level II of the fair value hierarchy as per Ind AS 113 Fair Value Measurements. Level II fair values maximise the use of observable market data and rely as little as possible on entity specific estimates. Significant inputs required to measure a level II fair value are observable. The fair value of all the instruments measured at amortised cost is not significantly different from the carrying value of such instruments.

36 Financial risk management

The Company's activities exposes it to credit risk, liquidity risk and market risk. In order to minimise any adverse effects on the financial performance of the Company, derivative financial instruments, such as foreign exchange forward contracts are taken. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk.

The Company's risk management is carried out by the Company's treasury department under policies approved by the board of directors. The board provides written principles for overall risk management, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.

(A) Credit risk

The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and other financial instruments. For banks and other financial institutions, only high rated banks/ financial institutions are accepted. The balances with banks, loans given to employees, security deposits are subject to low credit risk and the risk of default is negligible or nil. The Company has recognized provision based on assumptions about risk of default, expected loss rates and specific identification method.

I Trade receivables

Credit risk arises from the possibility that customer will not be able to settle their obligations as and when agreed. To manage this, the Company periodically assesses the financial reliability of customers, taking into account the financial condition, current economic trends, analysis of historical bad debts, ageing of accounts receivable and forward looking information. Individual credit limits are set accordingly. The Company has recognized the provision based on assumptions about risk of default, expected loss rates and specific identification method.

Movement of provision for loss allowance :

	Provision for Loss allowance
Provision as at January 1, 2020	174.12
Change during the year	80.83
Provision as at December 31, 2020	254.95
Change during the year	(1.74)
Provision as at December 31, 2021	253.21

(B) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying business, the Company's treasury maintains flexibility in funding by maintaining availability under committed credit lines.

The table below analyses the Company's financial liabilities into relevant maturity groupings based on their contractual maturities for :

Notes forming part of the financial statements (Contd.)

(All amounts are in ₹ million, unless otherwise stated)

- 1) all non-derivative financial liabilities, and
- 2) net and gross settled derivative financial instruments for which the contractual maturities are essential for an understanding of the timing of the cash flows.

Maturity profile of financial liabilities based on undiscounted cash flows:

	December 31, 2021		December 31, 2020	
	Upto 1 year	Above 1 year	Upto 1 year	Above 1 year
Borrowings	-	-	603.21	-
Trade payables	2,791.50	-	2,627.56	-
Lease liabilities	10.46	28.21	7.40	10.34
Other financial liabilities	827.15	-	667.39	-

(C) Market risk

I) Foreign currency risk

The Company is engaged in international trade and thereby exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the EUR and USD. Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the Company's functional currency (₹). The Company's risk management policy is to hedge purchases and sales separately. The Company uses foreign exchange forward contracts to hedge its exposure in foreign currency risk.

i) Foreign currency risk exposure

The Company's exposure to foreign currency risk at the end of the reporting period expressed in ₹ million, are as follows :-

	December 31, 2021					December 31, 2020				
	EUR	USD	AUD	GBP	BDT	EUR	USD	AUD	GBP	BDT
Financial assets										
Trade receivables	72.82	580.43	-	-	-	191.55	439.30	-	-	-
Bank balances in EEFC accounts	2.29	181.75	-	-	4.92	136.17	206.21	-	-	-
Derivative assets - Foreign exchange forward contracts (Sell Foreign Currency)	-	(43.95)	-	-	-	(17.62)	(60.89)	-	-	-
Net exposure to foreign currency risk (assets)	75.11	718.23	-	-	4.92	310.10	584.62	-	-	-
Financial liabilities										
Trade payables	365.87	219.32	0.12	0.22	-	248.99	199.64	1.06	8.28	-
Derivative liabilities - Foreign exchange forward contracts (Buy Foreign Currency)	-	-	-	-	-	-	-	-	-	-
Net exposure to foreign currency risk (liabilities)	365.87	219.32	0.12	0.22	-	248.99	199.64	1.06	8.28	-

Notes forming part of the financial statements (Contd.)

(All amounts are in ₹ million, unless otherwise stated)

ii) ii) Sensitivity

The sensitivity of profit and loss to changes in the exchange rates arises mainly from foreign currency denominated financial instruments:

	Impact on profit before tax	
	December 31, 2021	December 31, 2020
EUR sensitivity		
INR/EUR - Increase by 5% (December 31, 2020-5%)*	(14.54)	3.06
INR/EUR - Decrease by 5% (December 31, 2020-5%)*	14.54	(3.06)
USD sensitivity		
INR/USD - Increase by 5% (December 31, 2020-5%)*	24.95	19.25
INR/USD - Decrease by 5% (December 31, 2020-5%)*	(24.95)	(19.25)

* Holding all other variables constant

(C) Market risk

II) Interest rate risk

The Company's main interest rate risk arises from short term borrowings and deposits taken / placed over a period of time on frequent basis thereby exposing the Company to interest rate risk. The Company's policy is to have fixed interest rate at the time of deal execution.

37 Capital management

a) Risk management

The Company's objectives when managing capital are to safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders, and maintain an optimal capital structure to reduce the cost of capital. For the purpose of the Company's capital management, capital includes issued equity capital and all other equity reserves attributable to the equity holders of the parent. The primary objective of the Company's capital management is to maximise the shareholders value. The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. The Company is virtually debt-free and has net cash and bank balance. Refer note 16 for Net debt reconciliation.

No changes were made in the objectives, policies or processes for managing capital during the years ended December 31, 2021 and December 31, 2020.

b) Dividends

	December 31, 2021	December 31, 2020
(i) Equity shares		
Final dividend paid for the year ended		
December 31, 2020 of ₹ 8.50		
(December 31, 2019 of ₹ 8.00) per fully paid share	295.87	278.46
(ii) Dividends not recognised at the end of the reporting period		
The directors have recommended the payment of a final dividend of ₹ 12.50 per fully paid equity share (December 31, 2020 - ₹ 8.50). This proposed dividend is subject to the approval of shareholders in the ensuing annual general meeting.	435.10	295.87

38 Recent Accounting Pronouncements:

Ministry of Corporate Affairs (MCA), vide its notification dated March 24, 2021, amended Schedule III of the Companies Act, 2013 with effect from April 1, 2021. There are key amendments relating to Division II, which relate to companies whose financial statements are required to comply with Companies (Indian Accounting Standards) Rules 2015.

The aforesaid notification is applicable for the financial year commencing from April 1, 2021. Thus management will evaluate disclosures required and applicable to Financial statements issued in respect of accounting years commencing on or after April 1, 2021.

39 The Novel Coronavirus (COVID-19) is a Global Pandemic which impacted businesses globally including in India. The Company had shutdown all plants and offices in adherence to nationwide lockdown effective March 23, 2020, as declared by Government of India to prevent and contain the spread of Coronavirus outbreak. The Company resumed its operations across India in a phased manner as the Government of India progressively relaxed the lockdown. Further, in line with the advisories, orders and directions issued by the respective local Government Authorities, to prevent and contain the spread of Novel Coronavirus (COVID-19) outbreak, most of the Company's manufacturing facilities and offices at various locations were under temporary shutdown for certain period of the quarter ended June 30, 2021. The Management has made an assessment of liquidity, recoverable values of its financial and non-financial assets taking all relevant external and internal factors into consideration and has concluded that there are no material adjustments required in the financial statements. However, the impact assessment of COVID-19 is a continuous process, given the uncertainties associated with its nature and duration. The Company will continue to closely monitor any material changes to future economic conditions.

40 Events occurring after the reporting period

Refer to note 37 (b) (ii) for the final dividend recommended by the directors which is subject to the approval of shareholders in the ensuing general meeting.

41 Previous year's figures have been regrouped / reclassified wherever considered necessary to conform current year's classification / disclosure.

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF KSB LIMITED

Report on the audit of the Consolidated Financial Statements

Opinion

1. We have audited the accompanying consolidated financial statements of KSB Limited (hereinafter referred to as the 'Holding Company') and its subsidiary (the Holding Company and its subsidiary together referred to as "the Group") and its associate (refer Note 35 to the attached consolidated financial statements), which comprise the Consolidated Balance Sheet as at December 31 2021 and the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year then ended and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information prepared based on the relevant records. (hereinafter referred to as "the consolidated financial statements").
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group and its associate as at December 31, 2021 of the consolidated total comprehensive income (comprising of profit and other comprehensive

income), consolidated changes in equity and its consolidated cash flows for the year then ended.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group and its associate in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in India in terms of the Code of Ethics issued by ICAI and the relevant provisions of the Act, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditor in terms of their report referred to in sub-paragraph 14 of the Other Matter paragraph below, other than the unaudited financial information as certified by the management and referred to in sub-paragraph 14 of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

4. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the key audit matter
<p>Appropriateness of Revenue Recognition (Refer to Note 1(f), 2(ii) and 21 to the consolidated financial statements)</p> <p>The Group recognises revenue in accordance with Ind AS 115 "Revenue from Contracts with Customers". This involves application of significant judgements by Management with respect to:</p> <ul style="list-style-type: none"> Combining of multiple contracts as single contract. 	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> Understanding and evaluation of the design and testing the operating effectiveness of controls surrounding the recording of revenue in accordance with the principles of Ind AS 115. Testing of customer contracts on a sample basis to assess the terms for identification of performance obligations in accordance with Ind AS 115 and comparing those to the management assessment;

INDEPENDENT AUDITORS' REPORT (Contd.)

<ul style="list-style-type: none"> • Identification of distinct performance obligations; • Allocation of consideration to identified performance obligations; • Determination of timing of recognition of revenue either over a period of time or at a point in time on transfer of control to customers. This include assessment of alternative use of the products to the Group basis technical analysis as well as legal assessment of right to payment. <p>Considering the above-mentioned factors, appropriateness of revenue recognition has been considered as a Key Audit Matter.</p>	<ul style="list-style-type: none"> • Assessing appropriateness of management's judgements and estimates involved in accounting for a sample of customer contracts including inquiry and discussion with appropriate client personnel especially regarding the nature of products and alternative use of the products to the Group. • Evaluation of the in-house legal counsel's views regarding the Company's right to payment for performance to date; • Testing the appropriateness of timing of recognition of revenue (including procedures related to cut off) in line with the terms of the customer contracts; • Testing the key assumptions used by the management to estimate contract risks, claims, liquidated damages etc.; • Verifying the reports used by management for monitoring contracts and their progress; • Evaluating appropriateness of the disclosures provided in the consolidated financial statements. <p>Based on above procedures, we did not identify any significant exceptions in the judgements applied by the management in recognition of revenue.</p>

Other Information

5. The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Board's Report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed and, we conclude that there is a material misstatement of

this other information, we are required to report that fact.

We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

6. The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated financial statements in term of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows, and changes in equity of the Group including its Associate in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act. The respective Board of Directors of the companies included in the Group and of its associate are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of

- the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.
7. In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group and of its associate are responsible for assessing the ability of the Group and of its associate to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.
 8. The respective Board of Directors of the companies included in the Group and of its associate are responsible for overseeing the financial reporting process of the Group and of its associate.
- Auditor's Responsibilities for the Audit of the Consolidated Financial Statements**
9. Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.
 10. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:
 - (a) Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - (b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
 - (c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
 - (d) Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associate to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group

INDEPENDENT AUDITORS' REPORT (Contd.)

and its associate cease to continue as a going concern.

- (e) Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
 - (f) Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associate to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors.
11. We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
12. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
13. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

14. We did not audit the financial statements of the subsidiary whose financial statements reflect total assets of ₹ 1.85 million and net assets of ₹ 1.80 million as at December 31, 2021, total revenue of ₹ Nil, total comprehensive loss (comprising of loss and other comprehensive loss) of ₹ (0.09) million and net cash flows amounting to ₹ (0.09) million for the year ended on that date, as considered in the consolidated financial statements. These financial statements have been audited by other auditors whose report has been furnished to us by the Management, and our opinion on the consolidated financial statements insofar as it relates to the amounts and disclosures included in respect of this subsidiary and our report in terms of sub-section (3) of Section 143 of the Act including report on Other Information insofar as it relates to the aforesaid subsidiary, is based solely on the report of the other auditor.

The consolidated financial statements also include the Group's share of total comprehensive income (comprising of profit and other comprehensive income) of ₹ 61.99 million for the year ended December 31, 2021 as considered in the consolidated financial statements, in respect of associate company whose financial information has not been audited by us. This financial information is unaudited and has been furnished to us by the Management. Our opinion on the consolidated financial statements insofar as it relates to the amounts and disclosures included in respect of this associate company and our report in terms of sub-section (3) of Section 143 of the Act including report on Other Information insofar as it relates to the aforesaid associate, is based solely on such unaudited financial information. In our opinion and according to the information and explanations given to us by the Management, this financial information is not material to the Group.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matter with respect to our reliance on the work done and the report of the other auditor and the financial information certified by the Management.

INDEPENDENT AUDITORS' REPORT (Contd.)

Report on Other Legal and Regulatory Requirements

15. As required by Section 143(3) of the Act, we report, to the extent applicable, that:
- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
 - (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the report of the other auditor.

ANNEXURE TO INDEPENDENT AUDITORS' REPORT

ANNEXURE A TO INDEPENDENT AUDITORS' REPORT

Referred to in paragraph 15(f) of the Independent Auditors' Report of even date to the members of KSB Limited on the consolidated financial statements for the year ended December 31, 2021.

Report on the Internal Financial Controls with reference to consolidated financial statements under Clause (i) of Sub-section 3 of Section 143 of the Act

1. In conjunction with our audit of the consolidated financial statements of the KSB Limited as of and for the year ended December 31, 2021, we have audited the internal financial controls with reference to consolidated financial statements of KSB Limited (hereinafter referred to as "the Holding Company"), its subsidiary company and its associate company which is incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

2. The respective Board of Directors of the Holding company, its subsidiary company and its associate company to whom reporting under clause (i) of sub section 3 of Section 143 of the Act in respect of the adequacy of the internal financial controls with reference to consolidated financial statements is applicable, which is incorporated in India, are responsible for establishing and maintaining internal financial controls based on internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the

timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

3. Our responsibility is to express an opinion on the Holding Company's internal financial controls with reference to consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Holding Company's internal financial controls system with reference to consolidated financial statements.

ANNEXURE TO INDEPENDENT AUDITORS' REPORT (Contd.)

Meaning of Internal Financial Controls with reference to financial statements

6. A company's internal financial control with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the consolidated financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

7. Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of

controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial control with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Holding Company, its subsidiary company and its associate company which are incorporated in India, have, in all material respects, an adequate internal financial controls system with reference to consolidated financial statements and such internal financial controls with reference to consolidated financial statements were operating effectively as at December 31, 2021, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

(c)	<p>Segment reporting</p> <p>Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker is the Group's board of directors. Refer note 34 for segment information presented.</p>
(d)	<p>Principles of consolidation and equity accounting</p> <p>(i) Subsidiaries</p> <p>Subsidiaries are all entities (including structured entities) over which the group has control. The group controls an entity when the group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the group. They are deconsolidated from the date that control ceases. The acquisition method of accounting is used to account for business combinations by the group. The group combines the financial statements of the company and its subsidiary line by line adding together like items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the group.</p> <p>(ii) Associates</p> <p>Associates are all entities over which the group has significant influence but not control or joint control. This is generally the case where the group holds between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting after initially being recognised at cost.</p> <p>(iii) Equity method</p> <p>Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the group's share of the post-acquisition profits or losses of the investee in profit and loss, and the group's share of other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates are recognised as a reduction in the carrying amount of the investment. When the group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity. Unrealised gains on transactions between the group and its associates are eliminated to the extent of the group's interest in this entity. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity accounted investees have been changed where necessary to ensure consistency with the policies adopted by the group. The carrying amount of equity accounted investments are tested for impairment in accordance with the policy of the Group.</p>
(e)	<p>Foreign currency translation</p> <p>(i) Functional and presentation currency</p> <p>Items included in the consolidated financial statements of the Group are measured using the currency of the primary economic environment in which the entity operates (the 'functional currency'). The consolidated financial statements are presented in Indian rupee ₹, which is the Group's functional and presentation currency.</p>

Notes forming part of the Consolidated financial statements (Contd.)

(All amounts in ₹ million, unless otherwise stated)

(ii)	<p>Transactions and balances</p> <p>Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end are recognised in profit and loss and are presented in the Consolidated Statement of Profit and Loss on a net basis.</p> <p>Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.</p>
(f)	<p>Revenue recognition</p> <p>Ind AS 115 Revenue from Contracts with Customers deals with revenue recognition and establishes principles for reporting useful information to users of consolidated financial statements about the nature, amount, timing and uncertainty of revenue and cash flows arising from an entity's contracts with customers. Revenue is recognised when a customer obtains control of a promised good or service and thus has the ability to direct the use and obtain the benefits from the good or service in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods and services.</p> <p>The five-step process must be applied before revenue can be recognised:</p> <ol style="list-style-type: none"> (i) identify contracts with customers (ii) identify the separate performance obligation (iii) determine the transaction price of the contract (iv) allocate the transaction price to each of the separate performance obligations, and (v) recognise the revenue as each performance obligation is satisfied. <p>(i) Revenue from sale of products</p> <p>The Group accounts for a contract when it has approval and commitment from parties involved, the rights of the parties are identified, payment terms are identified, the contract has commercial substance and collectability of consideration is probable.</p> <p>Group generate revenue from sale of pumps, valves and related support services. The Group may promise to provide distinct goods or services within a contract, for example when a contract covers multiple promises (e.g., supply of pumps, motors and spares), in which case the Group separates the contract into more than one performance obligation. If a contract is separated into more than one performance obligation, the Group allocates the total transaction price to each performance obligation on the basis of the relative standalone selling price of each distinct product or service promised in the contract. Where standalone selling price is not observable, the Group uses the expected cost-plus margin approach to allocate the transaction price to each distinct performance obligation.</p> <p>The Group assesses for the timing of revenue recognition in case of each distinct performance obligation. The Group first assesses whether the revenue can be recognized over time as it performs if any of the following criteria is met:</p> <ol style="list-style-type: none"> (a) The customer simultaneously consumes the benefits as the Group performs, or (b) The customer controls the work-in-progress, or (c) The Group's performance does not create an asset with alternative use to the Group and the Group has right to payment for performance completed till date <p>If none of the criteria above are met, the Group recognizes revenue at a point-in-time. The point-in-time is determined when the control of the goods or services is transferred which is generally determined based on when the significant risks and rewards of ownership are transferred to the customer. Apart from this, the Group</p>

Notes forming part of the Consolidated financial statements (Contd.)

(All amounts in ₹ million, unless otherwise stated)

also considers its present right to payment, the legal title to the goods, the physical possession and the customer acceptance in determining the point in time where control has been transferred.

The Group uses input method to measure the progress for contracts because it best depicts the transfer of control to the customer which occurs as it incurs costs on contracts. Under the input method measure of progress, the extent of progress towards completion is measured based on the ratio of costs incurred to date to the total estimated costs at completion of the performance obligation. Revenues, including estimated fees or profits, are recorded proportionally as costs are incurred.

Due to the nature of the work required to be performed on performance obligations, the estimation of total revenue and cost at completion is complex, subject to many variables and requires significant judgment. It is common for project contracts to contain penalties, bonuses or other provisions that can either increase or decrease the transaction price. These variable amounts generally are awarded upon achievement of certain performance metrics, program milestones or cost targets and may be based upon customer discretion.

The Group estimates variable consideration using expected value method of probability-weighted values at an amount to which it expects to be entitled. The Group includes estimated amounts in the transaction price to the extent it is probable that a significant reversal of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is resolved. The estimates of variable consideration and determination of whether to include estimated amounts in the transaction price are based largely on an assessment of the anticipated performance and all information (historical, current and forecasted) that is reasonably available.

Contracts are modified to account for changes in contract specifications and requirements. The Group considers contract modifications to exist when the modification either creates new or changes the existing enforceable rights and obligations. Most of the contract modifications are for goods or services that are not distinct from the existing contract due to the significant integration service provided in the context of the contract and are accounted for as if they were part of that existing contract. The effect of a contract modification on the transaction price and measure of progress for the performance obligation to which it relates, is recognized as an adjustment to revenue (either as an increase in or a reduction of revenue) on a cumulative catch-up basis.

When estimates of total costs to be incurred exceed total estimates of revenue to be earned on a performance obligation related to a contract, a provision for the entire loss on the performance obligation is recognized in the period.

Revenue recognised at a point-in-time

For sale of products, revenue is recognised at point in time when control of goods is transferred to the customer - based on delivery terms, payment terms, customer acceptance and other indicators of control as mentioned above.

(ii) Revenue from sale of services

Group generate revenue from sale of pumps, valves and related support services. Revenue from services is recognised in the accounting period in which the services are rendered.

(iii) Other operating revenue

Revenue comprising of income from ancillary activities incidental to the operations of the Group is recognized when the right to receive the income is established as per the terms of the contract. Revenue from export incentives majorly comprises of Duty drawback and Merchandise Export Incentive Scheme (MEIS) which are recognised on an accrual basis at specified rates. Refer note 21.

	<p>(iv) Other income</p> <p>Interest income:</p> <p>Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable. Interest income is included in Other income in the Consolidated Statement of Profit and Loss.</p> <p>Dividends:</p> <p>Dividends are recognised in the Consolidated Statement of Profit and Loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Group, and the amount of the dividend can be measured reliably.</p>
(g)	<p>Income tax</p> <p>The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.</p> <p>The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulations is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.</p> <p>Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.</p> <p>Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.</p> <p>Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.</p> <p>Current and deferred tax is recognised in Consolidated Statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.</p>
(h)	<p>Government grants</p> <p>Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received, and the Group will comply with all attached conditions. Government grants relating to income are recognised in the Consolidated Statement of Profit and Loss. Refer note 1(f)(iii) for accounting policy related to Duty drawback and Merchandise Export Incentive Scheme (MEIS).</p> <p>When government or related institutions provide concession in interest on borrowings or loans availed by the Group from financial institutions, such interest concession is regarded as a government grant. The Group accounts for the interest paid at concessional rate on packing credit facility availed for export of goods.</p>
(i)	<p>Leases</p> <p>Effective January 1, 2020, the Group has adopted Ind AS 116 - Leases, using the 'Modified Retrospective Approach' for transition from Ind AS 17 - Leases, with no impact to the retained earnings as at January 1, 2020. Accordingly, the comparatives have not been retrospectively adjusted.</p>

Notes forming part of the Consolidated financial statements (Contd.)

(All amounts in ₹ million, unless otherwise stated)

	<p><i>As a lease:</i></p> <p>Leases are recognised as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Group. Each lease payment is allocated between the principal (liability) and finance cost. The finance cost is charged to the Consolidated Statement of Profit and Loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.</p> <p>Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the fixed payments (including in-substance fixed payments), less any lease incentives receivable.</p> <p>Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability. The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, the lessee's incremental borrowing rate is used, being the rate that the lessee would have to pay to borrow the funds necessary to obtain an asset of similar value in a similar economic environment with similar terms and conditions.</p> <p>Right-of-use assets are measured at cost comprising the following:</p> <ul style="list-style-type: none"> • the amount of the initial measurement of lease liability • any lease payments made at or before the commencement date less any lease incentives received • any initial direct costs, and • restoration costs. <p>Right-of-use asset is depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the Group is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset's useful life.</p> <p>Payments associated with short-term leases and leases of low-value assets are recognised on a straight-line basis as an expense in the Consolidated Statement of Profit and Loss. Short-term leases are leases with a lease term of 12 months or less.</p>
(j)	<p>Impairment of assets</p> <p>The management periodically assesses, using external and internal sources, whether there is an indication that an asset may be impaired. If an asset is impaired, the Group recognises an impairment loss as the excess of the carrying amount of the asset over the recoverable amount. Recoverable amount is higher of an asset's or cash generating unit's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. An impairment loss is reversed to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined if no impairment loss had previously been recognised.</p>
(k)	<p>Cash and cash equivalents</p> <p>For the purpose of presentation in the Statement of Cash Flows, cash and cash equivalents include cash on hand, balances with banks in current accounts and EEFC accounts, fixed deposits with banks with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the consolidated balance sheet. Other bank balances include fixed deposits with original maturities of more than three months and earmarked accounts which includes unpaid dividend.</p>
(l)	<p>Trade receivables</p> <p>Trade receivables are amounts due from customers for goods sold and services performed in the ordinary course of business. Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment and liquidated damages.</p>

Notes forming part of the Consolidated financial statements (Contd.)

(All amounts in ₹ million, unless otherwise stated)

(m)	<p>Borrowing costs</p> <p>Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised as part of the cost of that asset. Other borrowing costs are recognised as an expense in the year in which they are incurred.</p>
(n)	<p>Inventories</p> <p>Inventories are valued at the lower of cost and net realisable value.</p> <p>Cost of raw materials, components, stores, spares, loose tools and traded goods comprises cost of purchases. Cost of work-in progress and finished goods comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition. Costs are assigned to individual items of inventory on the basis of weighted average basis. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.</p>
(o)	<p>Financial assets</p> <p>(i) Classification</p> <p>The Group classifies its financial assets in the following measurement categories:</p> <ul style="list-style-type: none"> • those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and • those measured at amortised cost. <p>The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.</p> <p>For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held.</p> <p>For investments in equity instruments, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.</p> <p>The Group reclassifies debt investments when and only when its business model for managing those assets changes.</p> <p>(ii) Measurement</p> <p>At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in Consolidated Statement of Profit and Loss.</p> <p>Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.</p> <p>Debt instruments</p> <p>Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. The Group classifies its debt instruments as follows:</p>

Notes forming part of the Consolidated financial statements (Contd.)

(All amounts in ₹ million, unless otherwise stated)

	<ul style="list-style-type: none"> Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in other income using the effective interest rate method.
	<p>Equity instruments</p> <p>The Group subsequently measures equity investment at fair value. The Group's Management elects to present fair value gains and losses on equity investments in other comprehensive income on an instrument by instrument basis.</p>
	<p>(iii) Impairment of financial assets</p> <p>The Group assesses on a forward-looking basis the expected credit loss associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Refer note 39(A) for details of credit risk.</p> <p>For trade receivables, the Group applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.</p>
	<p>(iv) Derecognition of financial assets</p> <p>A financial asset is derecognised only when</p> <ul style="list-style-type: none"> The Group has transferred the rights to receive cash flows from the financial asset or retains the contractual rights to receive the cash flows of the financial asset but assumes a contractual obligation to pay the cash flows to one or more recipients. <p>Where the entity has transferred an asset, the Group evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.</p> <p>Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Group has not retained control of the financial asset. Where the Group retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.</p>
(p)	<p>Derivatives</p> <p>The Group enters into certain derivative contracts to hedge risks which are not designated as hedges. Such contracts are accounted for at fair value through profit or loss.</p>
(q)	<p>Offsetting financial instruments</p> <p>Financial assets and liabilities are offset, and the net amount is reported in the consolidated balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or the counterparty.</p>
(r)	<p>Property, plant and equipment</p> <p>Freehold land is stated at historical cost. All other items of property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.</p>

Notes forming part of the Consolidated financial statements (Contd.)

(All amounts in ₹ million, unless otherwise stated)

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to the Consolidated Statement of Profit and Loss during the reporting period in which they are incurred.

Depreciation methods, estimated useful lives and residual value

Depreciation is provided on the straight-line method/ written down value method over the useful lives of assets which has been assessed as under the technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, maintenance support, etc., which are different from those prescribed in Schedule II to the Companies Act, 2013 (Act) except for server and networking (SLM) and furniture and fixtures (WDV) which are same as prescribed in Schedule II to the Act. Estimated useful lives of assets are as follows:

Asset	Useful life
Buildings	43 to 90 years (WDV)
Plant and equipment	09 to 21 years (SLM)
Vehicles	05 to 11 years (WDV)
Office equipment	10 years (SLM)
Computer equipment	06 years (SLM)

The property, plant and equipment acquired under finance leases is depreciated over the asset's useful life or over the shorter of the asset's useful life and the lease term if there is no reasonable certainty that the Group will obtain ownership at the end of the lease term. Leasehold land and assets taken on lease are amortized over the period of the lease.

The asset's residual values and useful lives are reviewed and adjusted if appropriate, at the end of the reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Net gains or net losses on disposals are determined by comparing proceeds with carrying amount. These are included in the Consolidated Statement of Profit and Loss under other income or other expenses respectively.

(s) Intangible assets

Intangible assets are stated at acquisition cost net of tax/ duty credits availed, if any, and net of accumulated amortisation. Gains or losses arising from the retirement or disposal of an intangible asset are determined as the difference between the net disposal proceeds and the carrying amount of the asset and recognised as income or expense in the Consolidated Statement of Profit and Loss. Intangible assets are amortized on the straight-line method as follows:

Asset	Useful life
Rights, techniques, process	7 to 10 years
Computer software	3 years

Notes forming part of the Consolidated financial statements (Contd.)

(All amounts in ₹ million, unless otherwise stated)

(t)	<p>Trade and other payables</p> <p>These amounts represent liabilities for goods and services provided to the Group prior to the end of financial year which are unpaid. Trade and other payables are unsecured and are presented as current liabilities unless payment is not due within operating cycle determined by the Group after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.</p>
(u)	<p>Provisions and Contingent liabilities</p> <p>Provisions are recognised when the Group has a present, legal or constructive obligation as a result of a past event and it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made. Provisions are determined based on the best estimate required to settle the obligation at the Balance Sheet date. Provisions are reviewed at each Balance Sheet date and adjusted to reflect current best estimates. Provisions are not recognised for future operating losses. Provision for warranty is computed as a percentage of sales based on the past trends observed.</p> <p>Contingent liabilities are disclosed by way of a note to the consolidated financial statements when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.</p>
(v)	<p>Employee benefits</p> <p>(i) Short-term obligations</p> <p>Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the consolidated balance sheet.</p> <p>(ii) Other long-term employee benefit obligations</p> <p>The liabilities for Other long-term employee benefits such as long service award, privileged leave and sick leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in the Consolidated Statement of Profit and Loss. The obligations are presented as current liabilities in the consolidated balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.</p> <p>(iii) Post-employment obligations</p> <p>The Group operates the following post-employment schemes:</p> <p>(a) Defined benefit plans-gratuity and superannuation</p> <p>(b) Defined contribution plans - provident fund</p>

Notes forming part of the Consolidated financial statements (Contd.)

(All amounts in ₹ million, unless otherwise stated)

(a)	<p>Defined benefit plans - gratuity and superannuation</p> <p>(i) Gratuity</p> <p>The Group provides for gratuity, a defined benefit plan (the “Gratuity Plan”) covering eligible employees in accordance with the Payment of Gratuity Act, 1972, as amended from time to time. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death or termination of employment, of an amount based on the respective employee’s salary and the tenure of employment.</p> <p>The liability or asset recognised in the consolidated balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.</p> <p>The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.</p> <p>The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in finance cost in the Consolidated Statement of Profit and Loss.</p> <p>Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the Consolidated Statement of Changes in Equity and in the Consolidated Balance Sheet.</p> <p>Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in the Consolidated Statement of Profit and Loss as past service cost.</p> <p>(ii) Superannuation</p> <p>Superannuation is a benefit to certain employees (depending on the grade / category of the employee and completed years of service) per month for each completed year of service.</p>
(b)	<p>Defined Contribution Plans</p> <p>The Group pays provident fund contributions for all employees to publicly administered provident funds as per local regulations. The Group has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefits expense when they are due.</p>
(w)	<p>Dividends</p> <p>The Group recognizes provision for Dividend and the tax thereupon, if any, once the Dividend is approved by the shareholders in the annual general meeting.</p>
(x)	<p>Contributed equity</p> <p>Equity shares are classified as equity.</p> <p>Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.</p>

(y)	<p>Earnings per share</p> <p>(i) Basic Earnings per share</p> <p>Basic earnings per share is calculated by dividing:</p> <ul style="list-style-type: none">the net profit for the period attributable to equity shareholdersby the weighted average number of equity shares outstanding during the financial year. <p>Earnings considered in ascertaining the Group's earnings per share is the net profit for the period after deducting any attributable tax thereto for the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares that have changed the number of equity shares outstanding, without a corresponding change in resources.</p> <p>(ii) Diluted Earnings per share</p> <p>Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:</p> <ul style="list-style-type: none">the after-income tax effect of interest and other financing costs associated with dilutive potential equity shares, andthe weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.
(z)	<p>Rounding of amounts:</p> <p>Amounts disclosed in the consolidated financial statements are presented in INR in million rounded off to two decimal places as permitted by Schedule III to the Companies Act, 2013, unless otherwise stated.</p>
2.	<p>Significant accounting judgements, estimates and assumptions</p> <p>The preparation of consolidated financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the Group's accounting policies. Estimates and assumptions are continuously evaluated and are based on historical experience and other factors including expectations of future events that are believed to be reliable and relevant under the circumstances. This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Management believes that the estimates are the most likely outcome of future events. Detailed information about each of these estimates and judgements is described below.</p> <p>Judgements</p> <p>In the process of applying the Group's accounting policies, Management has made the following judgements, which have the most significant effect on the amounts recognized in the consolidated financial statements:</p> <p>i. Legal contingencies</p> <p>The The Group has received various orders and notices from tax authorities in respect of direct taxes and indirect taxes. The outcome of these matters may have a material effect on the financial position,</p>

Notes forming part of the Consolidated financial statements (Contd.)

(All amounts in ₹ million, unless otherwise stated)

	<p>results of operations or cash flows. Management regularly analyzes current information about these matters and provides provisions for probable contingent losses including the estimate of legal expense to resolve the matters. In making the decision regarding the need for loss provisions, management considers the degree of probability of an unfavorable outcome and the ability to make a sufficiently reliable estimate of the amount of loss. The filing of a suit or formal assertion of a claim against the Group or the disclosure of any such suit or assertions, does not automatically indicate that a provision of a loss may be appropriate.</p>
ii.	<p>Revenue Recognition on Contracts with Customers</p> <p>Group generate revenue from sale of Pumps, valves and related support services. Group uses judgement with respect to accounting of multiple contracts which need to be combined and considered as single contract. The Group exercises judgement with respect to identifying contracts for which revenue need to be recognised point in time or over a period of time, depending upon when customer consumes the benefit, when the control is passed to customer, whether asset created has an alternative use and whether the Group has right to payment for performance completed till date, either contractually or legally.</p>
iii.	<p>Ind AS 116 – Leases</p> <p>In determining the lease term, management consider all facts and circumstances that create an economic incentive to exercise an extension option or not to exercise a termination option. Extension options (or periods after termination options) are only included in the lease term if the lease is reasonably certain to be extended (or not terminated).</p> <p>For leases of offices and equipment's, the following factors are normally the most relevant:</p> <ul style="list-style-type: none"> • If there are significant penalties to terminate (or not extend), the Group is reasonably certain to extend (or not terminate). • If any leasehold improvements are expected to have a significant remaining value, the Group is reasonably certain to extend (or not terminate). • The Group consider other factors including historical lease durations and the costs and business disruption required to replace the leased asset. Most extension options in offices and equipment leases have not been included in the lease liability, because the Group could replace the assets without significant cost or business disruption. <p>The lease term is reassessed periodically whether an option is actually exercised (or not exercised) or the Group becomes obliged to exercise (or not exercise) it. The assessment of reasonable certainty is only revised if a significant event or a significant change in circumstances occurs, which affects this assessment, and that is within the control of the lessee.</p> <p>The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the Group, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.</p>

Notes forming part of the Consolidated financial statements (Contd.)

(All amounts in ₹ million, unless otherwise stated)

<p>Estimates and assumptions</p> <p>The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.</p> <p>i. Warranty</p> <p>The Group generally offers an 18 months warranty for its products, except for certain projects where the warranty offered may be higher to meet specific project requirements. Warranty costs are determined as a percentage of sales based on the past trends of the costs required to be incurred for repairs, replacements, material costs and servicing cost. Management estimates the related closing provision as at Balance Sheet date for future warranty claims based on historical warranty claim information, as well as recent trends that might suggest that past information may differ from future claims. The assumptions made in current period are consistent with those in the prior year. As the time value of money is not considered to be material, warranty provisions are not discounted. Refer note 19 for further information.</p> <p>ii. Gratuity</p> <p>The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuation. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, attrition rate, mortality rates and expected return on planned assets. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at the year end. The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation. The mortality rate is based on Indian Assured Lives Mortality (2012-14) Ultimate. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates. For further details about gratuity obligations are given in note earlier 33.</p> <p>iii. Recoverability of trade receivables</p> <p>Judgements are required in assessing the recoverability of overdue trade receivables and determining whether a provision against those receivables is required. Factors considered include the credit rating of the counterparty, the amount and timing of anticipated future payments and any possible actions that can be taken to mitigate the risk of non-payment. Refer note earlier 39(A) for further details.</p> <p>iv. Inventories</p> <p>An inventory provision is recognized for cases where the realizable value is estimated to be lower than the inventory carrying value. The inventory provision is estimated taking into account various factors, including prevailing sale prices of inventory item and losses associated with obsolete / slow moving / redundant inventory items. The Group has, based on these assessments, made adequate provision in the books.</p>

- (i) The Government of India has introduced 'Direct Tax Vivad Se Vishwas Act, 2020' which allows the assesses to settle the ongoing Income-tax litigations at various Adjudicating authorities. In this regard, the Company found it commercially expedient to put an end to continuous prolonged litigation and to get complete waiver of interest liability and immunity from penalty. Accordingly, the Company filed an application with the Income-tax authorities to avail the option as given under the said Act and to settle all the ongoing Income-tax litigations at various Adjudicating authorities pertaining to Assessment years from 2009-10 to 2016-17. The said application has been accepted by the Income-tax authorities. In the year ended December 31, 2021, the Company has paid INR 113.94 million towards the settlement of disputed Income-tax liability of INR 198.89 million, after adjusting of the refunds due, to the extent of INR 84.95 million. In this regard, the Company had recognized the provision of INR 190.38 million in the year ended December 31, 2020 in addition to the existing provision of INR 8.51 million.

Notes forming part of the Consolidated financial statements (Contd.)

(All amounts in ₹ million, unless otherwise stated)

- A Defined contribution plan :** Contributions are made to provident fund at a fixed percentage of employee's salary as per the regulations. The contributions are made to registered provident fund administered by the government. The obligation of the Group is limited to the amount contributed and it has no further contractual nor any constructive obligation. The expense recognised during the year towards contribution to provident fund is INR 82.60 million (December 31, 2020 - INR 69.24 million).
- B Compensated absences :** The leave obligations cover the Group's liability for privilege leave and sick leave. The amount of provision made during the year is INR 42.61 million (December 31, 2020 - INR 50.14 million). The Group does not have an unconditional right to defer settlement for any of these obligations. However, based on past experience, the Group does not expect all employees to take the full amount of accrued leave or require payment within twelve months and accordingly, amounts have been classified as current and non-current.
- C Long service award :** The Group award all the employees who complete 25 years of service in the Group and the Work-men employees who complete 20 or more years of service in the Group but unable to complete 25 years due to superannuation. The amount of provision made during the year is INR 50.74 million (December 31, 2020 - INR Nil).

- D Gratuity :** The Group provides for gratuity for employees in India as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is the employee's last drawn basic salary per month computed proportionately for 15 days to one month's salary multiplied for the number of years of service. The gratuity plan is a funded plan.

Funds managed by insurer	100%	100%

Risk exposure for the above plans

Through its defined benefit plan, the Group is exposed to a number of risks, the most significant of which are detailed below:

(i) Asset-liability mismatch risk

Risk which arises if there is a mismatch in the duration of the assets relative to the liabilities. In managing the plan assets, Board of Trustees reviews and manages these risks associated with the funded plan. Each year, the Board of Trustees reviews the level of funding in the gratuity plan. Such a review includes asset -

Notes forming part of the Consolidated financial statements (Contd.)

(All amounts in ₹ million, unless otherwise stated)

liability matching strategy and investment risk management policy (which includes contributing to plans that invest in risk averse markets). The Board of Trustees aim to keep annual contributions relatively stable at a level such that no plan deficits (based on valuation performed) will arise.

(ii) Asset volatility

All plan assets are maintained in a trust fund managed by a public sector insurer i.e., LIC of India. LIC has a sovereign guarantee and has been providing consistent and competitive returns over the years. The Group has opted for a traditional fund wherein all assets are invested primarily in risk averse markets. The Group has no control over the management of funds but this option provides a high level of safety for the total corpus. A single account is maintained for both the investment and claim settlement and hence, 100% liquidity is ensured. Also, interest rate and inflation risk are taken care of.

(iii) Discount rate risk

The present value of the defined benefit obligation is calculated using discount rate based on Government bonds. The decrease in the bond yield will increase the defined benefit obligation, however the same will be partially offset by an increase in value of plan assets.

(iv) Future salary escalation risk

The present value of the defined benefit obligation is calculated by reference to the future salaries of plan participants. As such, an increase in salary of the plan participants will increase the defined benefit obligation.

37 Fair value measurements

Except derivative instruments, all financial assets and financial liabilities are measured at amortised cost. Derivative instruments are classified as fair value through profit or loss. The fair value is determined using forward exchange rates at the balance sheet date. The instruments fall under level II of the fair value hierarchy as per Ind AS 113 Fair Value Measurements. Level II fair values maximise the use of observable market data and rely as little as possible on entity specific estimates. Significant inputs required to measure a level II fair value are observable. The fair value of all the instruments measured at amortised cost is not significantly different from the carrying value of such instruments.

38 Financial risk management

The Group's activities exposes it to credit risk, liquidity risk and market risk. In order to minimise any adverse effects on the financial performance of the Group, derivative financial instruments, such as foreign exchange forward contracts are taken. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk.

The Group's risk management is carried out by the Group's treasury department under policies approved by the Board of Directors. The board provides written principles for overall risk management, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.

(A) Credit risk

The Group is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and other financial instruments. For banks and other financial institutions, only high rated banks/ financial institutions are accepted. The balances with banks, loans given to employees, security deposits are subject to low credit risk and the risk of default is negligible or nil. The Group has recognized provision based on assumptions about risk of default, expected loss rates and specific identification method.

I Trade receivables

Credit risk arises from the possibility that customer will not be able to settle their obligations as and when agreed. To manage this, the Group periodically assesses the financial reliability of customers, taking into

Notes forming part of the Consolidated financial statements (Contd.)

(All amounts in INR million, unless otherwise stated)

account the financial condition, current economic trends, analysis of historical bad debts, ageing of accounts receivable and forward looking information. Individual credit limits are set accordingly. The Group has recognized the provision based on assumptions about risk of default, expected loss rates and specific identification method.

Movement of provision for loss allowance :

	Provision for Loss allowance
Provision as at January 1, 2020	174.12
Change during the year	80.83
Provision as at December 31, 2020	254.95
Change during the year	(1.74)
Provision as at December 31, 2021	253.21

(B) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying business, the Group's treasury maintains flexibility in funding by maintaining availability under committed credit lines.

The table below analyses the Group's financial liabilities into relevant maturity groupings based on their contractual maturities for :

- 1) all non-derivative financial liabilities, and
- 2) net and gross settled derivative financial instruments for which the contractual maturities are essential for an understanding of the timing of the cash flows.

Maturity profile of financial liabilities based on undiscounted cash flows:

	December 31, 2021		December 31, 2020	
	Upto 1 year	Above 1 year	Upto 1 year	Above 1 year
Borrowings	-	-	603.21	-
Trade payables	2,791.55	-	2,627.60	-
Lease liabilities	10.46	28.21	7.40	10.34
Other financial liabilities	827.15	-	667.39	-

(C) Market risk

I) Foreign currency risk

The Group is engaged in international trade and thereby exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the EUR and USD. Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the Group's functional currency (INR). The Group's risk management policy is to hedge purchases and sales separately. The Group uses foreign exchange forward contracts to hedge its exposure in foreign currency risk.

Notes forming part of the Consolidated financial statements (Contd.)

(All amounts in INR million, unless otherwise stated)

i) Foreign currency risk exposure

The Group's exposure to foreign currency risk at the end of the reporting period expressed in ₹ million, are as follows :-

	December 31, 2021					December 31, 2020				
	EUR	USD	AUD	GBP	BDT	EUR	USD	AUD	GBP	BDT
Financial assets										
Trade receivables	72.82	580.43	-	-	-	191.55	439.30	-	-	-

Net exposure to foreign currency risk (liabilities)	365.87	219.32	0.12	0.22	-	248.99	199.64	1.06	8.28	-

ii) Sensitivity

The sensitivity of profit and loss to changes in the exchange rates arises mainly from foreign currency denominated financial instruments:

	Impact on profit before tax	
	December 31, 2021	December 31, 2020
EUR sensitivity		
INR/EUR - Increase by 5% (December 31, 2020-5%)*	(14.54)	3.06
INR/EUR - Decrease by 5% (December 31, 2020-5%)*	14.54	(3.06)
USD sensitivity		
INR/USD - Increase by 5% (December 31, 2020-5%)*	24.95	19.25
INR/USD - Decrease by 5% (December 31, 2020-5%)*	(24.95)	(19.25)

* Holding all other variables constant

II) Interest rate risk

The Group's main interest rate risk arises from short term borrowings and deposits taken / placed over a period of time on frequent basis thereby exposing the Company to interest rate risk. The Group's policy is to have fixed interest rate at the time of deal execution.

39 Capital management

a) Risk management

The Group's objectives when managing capital are to safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders, and maintain an optimal capital structure to reduce the cost of capital. For the purpose of the Group's capital management, capital includes issued equity capital and all other equity reserves attributable to the equity holders of the parent. The primary objective of the Group's capital management is to maximise the shareholders value. The Group manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. The Group is virtually debt-free and has net cash and bank balance. Refer note 16 for Net debt reconciliation.

40 Recent Accounting Pronouncements:

Ministry of Corporate Affairs (MCA), vide its notification dated March 24, 2021, amended Schedule III of the Companies Act, 2013 with effect from April 1, 2021. There are key amendments relating to Division II, which relate to companies whose financial statements are required to comply with Companies (Indian Accounting Standards) Rules 2015.

The aforesaid notification is applicable for the financial year commencing from April 1, 2021. Thus management will evaluate disclosures required and applicable to Financial statements issued in respect of accounting years commencing on or after April 1, 2021."

41 The Novel Coronavirus (COVID-19) is a Global Pandemic which impacted businesses globally including in India. The Group had shutdown all plants and offices in adherence to nationwide lockdown effective March 23, 2020, as declared by Government of India to prevent and contain the spread of Coronavirus outbreak. The Group resumed its operations across India in a phased manner as the Government of India progressively relaxed the lockdown. Further, in line with the advisories, orders and directions issued by the respective local Government Authorities, to prevent and contain the spread of Novel Coronavirus (COVID-19) outbreak, most of the Group's manufacturing facilities and offices at various locations were under temporary shutdown for certain period of the quarter ended June 30, 2021. The Management has made an assessment of liquidity, recoverable values of its financial and non-financial assets taking all relevant external and internal factors into consideration and has concluded that there are no material adjustments required in the financial statements. However, the impact assessment of COVID-19 is a continuous process, given the uncertainties associated with its nature and duration. The Group will continue to closely monitor any material changes to future economic conditions.
