

## **KSB Sonolyzer:** a world first

The first app that hears whether you can save energy.

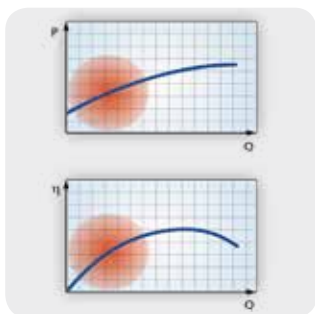

**Easy**  
measurement

Hold your smartphone next to the motor to check the energy efficiency.

**Quick**  
measurement

Measurement takes just 20 seconds.

**Potential savings** to be made?

The results analysis shows whether the operating point is inside or outside the part-load range.

**Direct contact**

If required, you can get in touch with your local KSB contact directly for a detailed efficiency analysis using POC or SES.
